PRESIDENT'S PREAMBLE

I am writing this immediately after the Maryland State Numismatic Association Convention/Atlantic Rarities Coin Exposition held last weekend at the Baltimore Convention Center. The show was a major success with much of the direct credit due to the efforts of many members of Maryland TAMS who worked long and hard not just this past weekend but throughout the year to make this convention a success. Equally as important was the extremely well attended MD TAMS meeting held at the show on Saturday 16 August. This was our official "annual" meeting and if you could not attend you missed a good one! The annual meeting giveaway was a sticker coin designed and prepared by Mill Hajek. The sticker was yellow with black writing on the reverse of a 1997 quarter. Members had to attend the meeting to receive this item. All members will receive the companion piece, a hot pink sticker on a 1997 quarter. This will be sent in this issue of the journal as an insert for all members in good standing. The two make quite a nice set. Thanks to Mill, Dot and son (team effort).

Because the last meeting was our annual meeting, we held our yearly election of officers. The incumbent set of officers ran unopposed and received unanimous support for reelection. I would like to publicly thank this team of officers for their outstanding work during the past year and I am extremely pleased with the prospects of all of us helping MD TAMS to become an even stronger organization that serves both the membership and the hobby with pride and professionalism. Thanks for your support!

Several new members have recently joined MD TAMS and some of them were at this meeting; in fact, several individuals joined at the meeting. New blood is the lifeline of any organization and I would like to especially thank our membership committee (Bob Ruby and Mill Hajek) and others who got us new members. The former used some inventive ways to zero in on possible new candidates.

Our next meeting will be the annual Swap Meet on Saturday 13 September Noon-4PM at Grace United Methodist Church at the corner of Charles Street & Northern Parkway. Bring your items to trade or sell, or just come to talk shop with other collectors. There will also be a meeting on Saturday 15 November at the Suburban Baltimore/Washington Show at the Baltimore Convention Center. The meeting will be 11AM - 1PM. Check at the registration desk for the room number. Let's make this meeting at least as well attended as the annual meeting. Don't forget to bring items for the auction and show and tell.

LOUISIANA TRADE TOKENS 2nd EDITION

By Louis Crawford & Glyn Farber

Book review by Curtis H. Judge

The reviewer has just received the second edition of Louisiana Trade Tokens published by T.A.M.S. The new volume is dramatic in it's improvements over the 1st edition published by Crawford, Tylenda and Farber in 1982. New format is 8 1/2" X 11", hardbound with over 550 pages of information. Paper quality is up to current standards as are the photographs of historical locations and tokens.

The scope of the project was expanded to include a large amount of additional historical data on the token issuing businesses. The authors felt that this information would allow readers to better understand the market forces that dictated token use, and the role that tokens played in the economic development of the area. This data should expand readership beyond the collector to students of the state's history.

Listing of the tokens is accomplished in the format started by Atwood in his Transit Token catalog. Listing is arranged alphabetically by town name of issuance, parish (county), and individual token catalog number. Complete descriptions of each known token are offered including size, composition, obverse and reverse wording, and rarity estimate. Several thousand new listings are included over those offered in the 1st edition.

The authors have included a valuation guide for each token. While a specific dollar value is not assigned, the methodology of valuation is new and provides a much better estimate of rarity and collectability of each piece. Each valuation consists of 1) a rarity estimate on a 1-10 scale with 10 being rarest 2) a

collectability rating on an alphabetic scale of A to G with the A ratings being for groups (types) of tokens collected by a large following of collectors. Author's example: a bimetallic lumber token from an extinct community will have more demand than a grocery token from New Orleans; therefore, even if three or four lumber tokens are known, it would be more desirable than the only known New Orleans item.

A maverick attribution list and index is included at the end of the catalog to assist the collector. Punch cards, coupon books, and other non reusable cardboard items are not included in the listings, but are referenced in an appendix section. The authors also exclude poker and gaming chips, tool checks, Masonic pennies and wooden nickels.

This new work will be required for the library of all serious collectors of Louisiana tokens. It is a first class effort, and is worthy of inclusion in every general token library. Copies are available from:

MOORE & BRADY TOKENS

In 1875, George W. Brady, who had been in the oyster packing business since 1871 at 54 High Street, formed a partnership with James H. Brady and located at the foot of Montgomery Street. The company was still operating in the early 1920's.

Illustrated below are some of the tokens issued by Moore & Brady for their oyster packing business. A possible explanation for the rectangle on the obverse may be that it was intended for counterstamping but no specimens are known to exist with a counterstamp in the rectangle. However, it was not unusual for oyster packers to use pieces of this nature counterstamped with various designations to shuckers to determine their pay. Some speculation on the reverse counterstamps 2Y, 3Y, and 3S.Y. could be a reference to #2 Yard or #3 Yard or #3 South Yard. Anyway its an interesting guess.

Also illustrated are some advertising cards featuring black watermen for Moore & Brady. These are quite scarce and command a premium in the advertising card market.

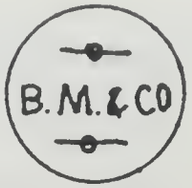
BEFORE Thomas J. Myer & Co.....

there was **BALDWIN, MYER & CO.**

by Russ Sears



There are several tokens listed for and documentation about Thomas J. Myer & Co., but before this firm, Mr. Myer was a partner with Robert Baldwin in the oyster packing firm of Baldwin, Myer & Co. This article is written to introduce the reader to Robert Baldwin and present the Baldwin, Myer & Co. token.

Robert Turner Baldwin was born on June 14, 1819 in Campbell County, Virginia. He came to Baltimore in 1835. The 1855-56 Baltimore City Directory showed him as a partner with Augustus M. Price in Baldwin & Price, oyster packer, at 307 W. Pratt St.

Baldwin, Myer & Co. appeared in the 1858-59 Woods Business Directory of Baltimore. Located at 90 West Falls Avenue on the east side of the harbor, the company according to Scharf in his History of Baltimore City and Baltimore County, was dissolved in 1866. Subsequent to that time, Thomas J. Myer operated as Thomas J. Myer & Co.

Robert Baldwin became the president of National Mechanics Bank of Baltimore in 1867 and over the years also served as an incorporator of The American Union Telegraph Co., director of American District Telegraph Co., treasurer and member of the Executive Committee of the Industrial Exposition and Musical Festival Association, member of the Harbor Board of Baltimore (1880) and the Baltimore City Finance Committee (1881). He did many things, but did not return to oyster packing after 1866.

The Baldwin, Myer & Co. brass token is round, struck incuse and 22 mm in diameter.

The research noted above, all from resources published in the 1800's, is very clear about the years the company existed. It was late 1850's to 1866. Of the 8 years it was in business, four of those years were during the Civil War. Is it likely that this piece is a Civil War token? Probably.

A Bicentennial Pursuit

by David G. Provost (R-278)

Introduction

In 1976, as our nation was celebrating the 200th anniversary of its birth, I was celebrating the 14th anniversary of mine, and my sixth year as a young numismatist (YN). Then, as now, silver coins and medals were my primary collecting interest.

To numismatically celebrate the bicentennial, I made several purchases from the U.S. Mint and one from The Franklin Mint (FM). My U.S. Mint purchases included the 3-coin Proof set of our bicentennial commemoratives, and a silver version of our nation's official bicentennial medal. From the FM, I purchased a collection of silver medals that featured the official bicentennial medals of the thirteen original states. In time, the FM medals came to be a favorite of mine, and were proudly displayed in my den.

While attending the Suburban Washington Baltimore Coin & Currency Show last November, I stumbled upon a medal with a design that I immediately recognized -- it was an antique bronze version of the New Jersey medal that was part of my FM set. The piece was produced by the Medallic Art Company, and was in much higher relief than the Proof medals from the FM. Being a former NJ resident, and fond of the medal's design, I quickly picked the piece up -- I paid a whopping $2.00 for it!

I didn't give much thought to the availability of other similar medals until a few weeks later when I was thumbing through a token and medal dealer's catalog. I discovered that the NJ medal was also available in an antique silver version! One quick call later, the piece was on its way to me and a new collecting interest was taking shape. My collection quickly grew to include both the bronze and silver versions of the North Carolina (my current home) medal courtesy of a few local coin and stamp shows.

The Medals

The high-relief, hand-buffed medals were produced by the Medallic Art Company, and were available, by subscription, in 18-K gold, Gold-on-Silver-Vermeil, Antique Sterling Silver, and Antique Bronze. The 18-K gold medals are 1" in diameter, all of the other medals are 1-3/4" in diameter. The Antique Sterling Silver and Bronze pieces were also available from local banks during the bicentennial celebrations; they were housed in a cardboard and plastic holder.

The gold medals were priced at $225.00 per medal, the Gold-on-Silver at $37.50, the Antique Sterling Silver at

$32.50, and the Antique Bronze at $10.00. The mintages, at least for the pieces available by subscription, were as follows: Gold - 250; Gold-on-Silver - 2,500; Sterling Silver - 5,000; and Bronze - the number of sets ordered by July 4, 1976. I am not sure how these numbers are changed by the issues available at the banks, though I surmise that the silver and bronze mintages are higher than the figures presented here.

The Designers

The designs for each medal were created by artists native to each state, and nearly all include images from our nation's early history. I find all of the designs very appealing, and am confident that collectors of either Americana medals or Bicentennial medals would be very pleased with the pieces.

Table 1 lists the designer/artist for each medal.

Wrap-up

As I write this, I am making plans for the March edition of the Suburban Washington Baltimore show, and hope to continue my "Bicentennial Pursuit." Topping this list are the medal of my home during my college years -- Maryland!

Tables 2 and 3 contain photo-illustrations of the thirteen medals.

WHAT: MARYLAND TOKEN & MEDAL SOCIETY MEETING
WHEN: 14 FEBRUARY 1998 (11 AM to 1 PM)
WHERE: DUNDALK & PATAPSCO NECK HISTORICAL SOCIETY

As promised in the last journal, a decision has been made about the first 1998 Maryland Token & Medal Society Meeting.The meeting will be held at the Dundalk & Patapsco Neck Historical Society in Dundalk, Maryland. There will be the usual business meeting and auction as well as a presentation by the Historical Society on Bay Shore Park. Time permitting, there may also be a slide presentation on Sparrows Point. The Historical Society will also have for display some local Baltimore County pickers checks. **The historical society building is just off of Dundalk Avenue directly across from the Dundalk Post Office. The address is 4 Center Place,** the road that separates the Historical Society from the Post Office. There is free parking in the Dundalk Shopping Center with some metered parking on Dundalk Ave. Access is possible from numerous venues:

From 695 via Key Bridge: Use Exit #44 JUST PAST toll booths. Exit ramp puts you on the end of Broening Highway - go LEFT and follow signs for Dundalk & Dundalk Ave. You will turn right onto Belclare Rd. for several yards -- at traffic light (Dundalk Ave) turn left. The Historical Society building is less than 1 mile on the right.

From 695 in other direction: Use Exit #39 (Merritt Blvd/Dundalk). Go approx. 2.7 mi. and turn right (at 9th light - HIGH'S/CITGO & AMOCO Station). The fire station will be on the right. Proceed thru 3 lights and turn right on Shipping Place. This puts you in the Dundalk Shopping center. Park anywhere.

From 95 use exit #56 Kieth Ave from either direction. Be CAREFUL - Kieth Ave exits are extremely close to the toll booths - stay to FAR right approaching the exit/toll both. Turn left onto Kieth Ave. & proceed to Broening Highway. Follow Broening past the Seagirt Terminal to either Dunhill Rd. (approx. 1.4 mi. at Dundalk Marine Terminal sign) or Belclare Rd (1.7 mi). Take a left & go short distance to Dundalk Ave. Go left less than half a mile to Post Office (this is Center Place).

A map extract is enclosed for your use. Please try to attend this meeting - it should be a good one! Also enclosed is a reminder about our next two MD TAMS meetings as well as a flyer about both the next BANC Coin Show on 22 February (we need some helpers) and the Maryland State Numismatic Association Convention/Atlantic Rarities Coin Exposition (15-17 May 1998). We also need workers on 14 May to help set up the Baltimore Convention Center. Hope to see you at the Dundalk & Patapsco Neck Historical Society meeting on 14 February (Valentines Day). Please bring some items for the auction.
